Business Mode Feature for a Digital Wallet Application – WalletPro

PART I. Consent Form

We are students from Partido State University, College of Engineering and Computational Sciences, conducting a usability study on the Business Mode Feature for a Digital Wallet Application called WalletPro. This prototype is designed to help freelancers, online sellers, small business owners, and individuals with dual financial usage manage their personal and business transactions more effectively. The purpose of this study is to evaluate the usability and user experience of the WalletPro prototype.

Your participation involves interacting with the WalletPro prototype and completing a short usability questionnaire (System Usability Scale) along with a few open-ended questions. The session is expected to take approximately 15 to 30 minutes of your time. Your participation is entirely voluntary, and you may withdraw at any time without penalty. All responses will be kept strictly confidential and will only be used for academic purposes. No personally identifiable information will be shared or disclosed.

There are no significant risks associated with this study. The benefits include contributing to the improvement of a financial management tool that addresses the common problem of mixed personal and business transactions.

MICHAEL B. AMATA

Course Instructor, Computational Sciences Department

By signing below, you acknowledge that you have read and understood the information above, and you voluntarily agree to participate in this study. Your signature confirms your informed consent to take part in the usability evaluation of the WalletPro prototype.

Participant's Name (Print): _____

Signature: _____

Date: _____

For inquiries, please contact the research team leader at: [Leader's Name], [Email Address]

PART II. Demographic Profile

Please fill in the following information:

Name (Optional):

Age:

Occupation / Role:

Digital Wallet Experience:

☐ None ☐ Beginner ☐ Intermediate ☐ Advanced

PART III. SYSTEM USABILITY SCALE (SUS)

The System Usability Scale (SUS) is a standardized usability questionnaire used to evaluate the ease of use of systems and applications. Your honest feedback on the WalletPro Business Mode prototype will help the development team identify strengths and areas for improvement.

Instructions: For each of the following statements, indicate your level of agreement by circling or checking the number that best reflects your experience using the WalletPro system, where:

1 = Strongly Disagree 2 = Disagree 3 = Neutral 4 = Agree 5 = Strongly Agree

#	Statement	1	2	3	4	5
1.	I think that I would like to use this system frequently.	1	2	3	4	5
2.	I found the system unnecessarily complex.	1	2	3	4	5
3.	I thought the system was easy to use.	1	2	3	4	5
4.	I think that I would need the support of a technical person to be able to use this system.	1	2	3	4	5
5.	I found the various functions in this system were well integrated.	1	2	3	4	5
6.	I thought there was too much inconsistency in this system.	1	2	3	4	5
7.	I would imagine that most people would learn to use this system very quickly.	1	2	3	4	5
8.	I found the system very cumbersome to use.	1	2	3	4	5
9.	I felt very confident using the system.	1	2	3	4	5
10.	I needed to learn a lot of things before I could get going with this system.	1	2	3	4	5

PART IV. OPEN-ENDED QUESTIONS

Please answer the following questions based on your experience using the WalletPro Business Mode feature. Write your answers in the space provided.

1. What feature or aspect of the WalletPro Business Mode did you find most useful or helpful in managing your transactions? Please explain why.

Answer:

2. What improvements or additional features would you suggest to make WalletPro more effective for managing both personal and business finances?

Answer:

Thank you for your participation!
