COMPUTATIONAL SCIENCES DEPARTMENT

OFTW: INDIVIDUAL PROGRESS REPORT
HCI2 – HUMAN-COMPUTER INTERACTION

Name:

Rona Mae S. Buenafe

Date(from-to):

April 20-26, 2026

Prototype Name:

WalletPro

Course/Year&Section:

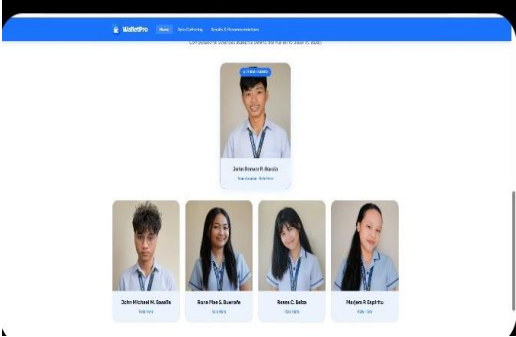

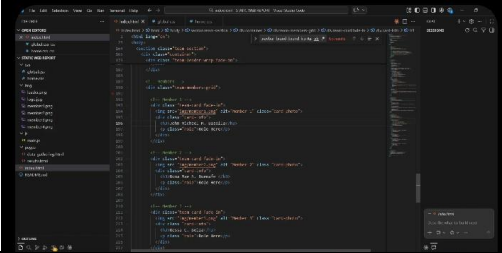

BSIT-3C

PROGRESS REPORT

Task No.	Task Title	Task Objective	Task Description
1.	Developing the Team Profile Section of the Home Page	To create and code a professional team section for the WalletPro web report that correctly displays each member's identity and role.	I coded the HTML and CSS for the team section, integrating the photos, names, and designated roles for the team leader and all group members.

DOCUMENTATION

Screenshot/Images	Descriptions
	This screenshot shows the live preview of the Home Page with the "Team Leader" and member cards properly aligned.
	This shows the backend HTML structure in Visual Studio Code where I organized the team-members-grid and team-card containers

WORK PROCESS:

Task	Process
Develop Home Page (Team Section)	

Structure Coding - I used Visual Studio Code to build the index.html, creating a grid layout under the team-section to hold five member cards.

Asset Integration - I linked the individual member photos (e.g., member1.png to member4.png) and the leader's image to their respective tags in the code.

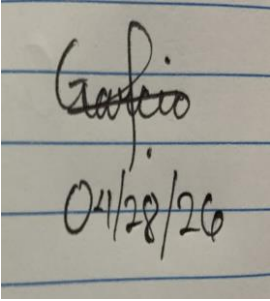

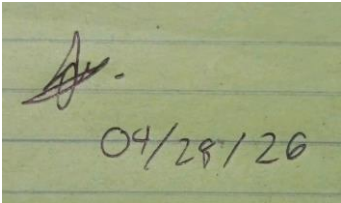

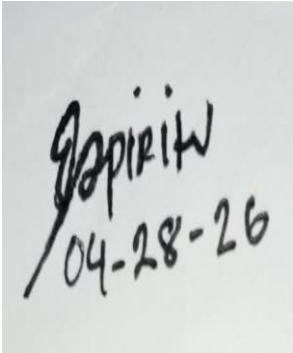

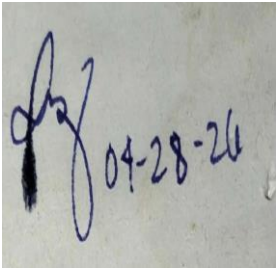

UI Styling - I implemented CSS classes like fade-in and card-info to ensure that the names and "Role Here" placeholders are visually consistent with the WalletPro theme.

Requirement Compliance - I ensured the Home Page meets the project guidelines by including the team leader (John Denver P. Garcia) and all members as required.
